(LIPI, Indonesia)

Dr. Rainer Ebel
(University of Aberdeen, Scotland)

Dr. Achmad Fuad, Apt
(Universitas Airlangga, Indonesia)

Dr. Nobuo Kawahara, PhD
(Research Center for Medicinal Plant Resources, Japan)

Seminar on Infectious Diseases:
Networking for the Promoting One World, One Health for a Better Tomorrow
Prevention and Treatment using Natural Products, Vaccines and Antivirals.

Garuda Multi Hall, Management Building 5th Floor,
Campus C Universitas Airlangga Mulyorejo
Surabaya, Indonesia, 60115
THURSDAY, 17 OCTOBER 2013
INTRODUCTION

Dear Colleagues

You are warmly invited to the Seminar on Infectious Diseases: Networking for the Promoting One World, One Health for a Better Tomorrow. Prevention and Treatment using Natural Products, Vaccines and Antivirals, to be held in Universitas Airlangga Campus C Management Building, Surabaya, Indonesia, on 17 October 2013. Please see below for details.

The Seminar on Infectious Diseases is an annual scientific meeting that related with SATREPS (Science and Technology Research Partnership for Sustainable Development) PROJECT, launched as from February 2010 to February 2014, supported by JST (Japan Science & Technology)-JICA (Japan International Cooperation Agency). The Institutions involved are: Kobe University Graduate School of Medicine, Faculty of Medicine University of Indonesia, Research Center for Medicinal Plant Resources NIBIO (National Institute of Biomedical Innovation) - Tsukuba, and Institute of Tropical Disease (ITD) Universitas Airlangga.

This seminar provides a relevant progress and innovations in preventive & therapeutic strategies and research in the management of viral diseases, with a particular focus on developments in the vaccine research and production, practical aspects of disease management – an important consideration as we draw closer to the era of wider treatment choices and more individualized clinical decisions. The pressing need for networking in the area of infectious diseases is also shown.

The organizing committee wish to extend a very warm welcome to you in the seminar on 17 October 2013.

Yours sincerely,

M. Inge Lusida, MD., PhD.
Chair of the Organizing Committee

OBJECTIVE

GENERAL
To strengthen the knowledge and to share an update information on tropical health and infectious diseases.

SPECIFIC
To provide conferences and special focus meetings on tropical and infectious diseases covering the prevention and treatment using natural products, vaccines and antivirals.
To promote the knowledge on tropical infectious diseases.
To share the experience of the development of vaccines and antivirals.

TOPIC

Prevention and treatment using natural products, vaccines and antivirals.
