Title: The title in bold capital letters should be centered across the top of the first page and should be in a distinctive 14 point size font.

Poster Guidelines

Instruction for Poster Presentation

Posters must be mounted on the day for which they are accepted between 12.00 and 13.30 and remain on display until the end of sessions on that day. The dimensions of the poster boards are 90 cm wide x 120 cm high. Material for mounting posters will be provided in the poster area. Authors are requested to be present at their posters during the poster session for which their poster has been scheduled. At that time, poster chair persons will walk around and discuss the selected posters.

EQUIPMENT FOR POSTER DISPLAY

- A large display board giving a display area of approximately 90 cm wide x 120 cm high will be provided for your poster display. Please refer to the above diagram.
- Author's Information should be under the title
- Please ensure that your poster title and authors as stated on the submitted abstract are printed on the top of your poster
- The text and illustrations should be bold enough to read from a distance of one meters. Please refer to the Final Program book that you will receive upon arrival at the
- Congress for the poster board number assigned to you.
- Please use the board with the same number.
- Corresponding authors should be with his/her poster during poster session

Dear participants,

It gives me a great pleasure to welcome you all to Surabaya, the capital of East Java, Indonesia to the "International Seminar on Traditional, Complementary and Alternative Medicine".

The theme of the meeting is "THE APPLIANCE OF HERBAL MEDICINE, JAMU AND OTHER COMPLEMENTARY ALTERNATIVE MEDICINE IN INDONESIAN INTEGRATIVE MEDICINE". The mission of this interdisciplinary meeting will be the integration T & CAM into the Public Health Care System, in which consumers will always expect that they can get benefit from traditional medicine and CAM under certain conditions without or with minimum or tolerable side effects and is cost-effective.

JAMU as being an Indonesian word for "medical herbs" has been known from generations through skills, and practices based on the theories, beliefs, and experiences indigenous to different cultures, whether explicable or not, used in the maintenance of health as well as in the prevention, diagnosis, improvement or treatment of physical and mental illness.

Therefore the end mission of the seminar will be to support the promotion of Scientification of Jamu, to control cooperation for Non Registered Traditional Medicine and that the Eastern Medicine should be integrated in the formal medicine education.

It is our wish to welcome you warmly to Surabaya and enjoy the meeting and meet the experts to discuss and broaden the knowledge of traditional, complementary and alternative medicine. See you in Surabaya!

Prof. DR. med. dr. Puruhito, SpB, SpBTKV
General Chairman of the Committee
