Dear Colleague,

We are pleased to announce the **Bioinformatics & Pharmacogenomics: Managing and Analyzing Big Data Conference**, to be held on **June 19-20, 2014** at the **Paradise Point Resort & Spa in San Diego, CA**.

Nearly every realm of biology has benefited from the boom of information coming from new technologies like next-generation sequencing. The scale and complexity of this data continues to increase and now new challenges regarding how to manage, sort, investigate, and utilize this data must be addressed.

This meeting will create space for researchers from both industry and academia to learn about the latest hot topics in areas such as sequencing platforms, data integration, personal genomics, single cell sequencing and pharmacogenomics as well as share and discuss perspectives during networking sessions.

Sessions for the 2014 meeting:

- I. Data integration
- II. Technical Advances in Data Visualization, Processing & Storage
- III. Clinical Trial Design for Personal Genomics
- IV. Advances & Challenges in Genome Assembly & Pan Genome Analysis
- V. Application of Next-Generation Sequencing Technologies (Joint session with NGS Conference)

Members of the Advisory Board:

Jay Bergeron, Director, Scientific Systems Analyst & Engineer, Pfizer
Jean-Baptiste Cazier, Bioinformatics Core Group Leader, Department of Oncology, University of Oxford
Liliana D. Florea, Assistant Professor, Institute of Genetic Medicine, Johns Hopkins University School of Medicine
Dongliang Ge, Director, Gilead Sciences
Vanessa Hayes, Professor and Head of Laboratory for Human Comparative and Prostate Cancer Genomics, Garvan Institute of Medical Research
Robert Loewe, CEO, Genevake GmbH
Zemin Ning, Senior Scientific Manager, The Wellcome Trust Sanger Institute, UK
Paul Rejto, Director Computational Biology and Oncology Research, Pfizer
Ravi Sachidanandam, Assistant Professor Genetics and Genomic Sciences, Mount Sinai Medical Center
Zhongming Zhao, Chief Bioinformatics Officer, Departments of Biomedical Informatics, Psychiatry, and Cancer Biology, Vanderbilt University
Frank Schacherer, Chief Technology Officer, BIOBASE GmbH
John McPherson, Genome Technologies Director, Ontario Institute for Cancer Research
Sally John, Executive Director Head of Clinical Genetics and Bioinformatics, Pfizer
Martin Moorhead, VP, Bioinformatics, Sequentia
Gregg TeHennepe, Sr. Manager, Research Liaison, The Jackson Laboratory
Bhanu Rekepalli, Assistant Professor and Research Scientist, The University of Tennessee
Andreas Kogelnik, Founder and Director, Open Medicine Institute
Rui Chen, Postdoctoral Scholar, Snyder Lab, Department of Genetics, Stanford University School of Medicine

We hope to see you in San Diego!

Best regards,

The Advisory Committee

Attend **All GTC Conferences** for One Year for only \$3,995 (\$1,990 for academic and government). Click [here](#) to sign up!
