Seminar

Pharmaceutical Seminar, also known as PHASE, is a national seminar which is already known by public, practitioners, academics and students in Indonesia. PHASE is conducted every year by Apotechary Faculty of Pharmacy, University of Indonesia as proof of responsibility for advancing the world of science education, especially in the field of pharmacy and pharmacist professional competence. More than hundreds of participants and dozens of sponsor are participated in our event. Therefore, we produce the Pharmaceutical Seminar 78 "PHASE 78" in the 2014.

Theme for this event is "The golden key of global change: innovation and improvement for pharmacy". We pick up the theme of this seminar because Indonesia is a potential pharmaceutical market. In the 2014's a lot of the changes that have been felt in the field of pharmacy profession, as BPJS, economic growth grew about 5% - 5.2% and the changes in the face of free trade / CAFTA in 2014. That chages will make profession of pharmacy must do some innovation and have good performance in pharmacy services, management and strategy to gain the good market.

What are these new innovations? Such innovations will we share through super speakers who competent in their field from both the industry and health care practitioner. All that exists only in the event Pharmaceutical Seminar 78. So prepare yourself to take part in promoting pharmacy in an era of global change.

 Talk Show, 09.00AM - 10.20AM 

Look more closer about implication and indicative responses from implementation of National Health Assurance System in pharmacy's community

 Rumpun Ilmu Kesehatan building  Drs. Nurul Falah Eddy Pariang, Apt. and Dr. dr. Fachmi Idris, M. Kes.

The talk show talking about the implementation of the evaluation BPJS since January 2014. View the problems in practice and what is the corrective action can be taken to promote the health for Indonesia society through this BPJS.

 1st Session Seminar, 10.20AM - 12.25AM 

1. Producing System of High Quality Generic Drug in global change
2. Product Innovation and Diversification in Pharmaceutical Industry in Global

Change

Rumpun Ilmu Kesehatan building 1. Drs. M. Sumarno, Apt. 2. Angela Gozal, S.Farm., M.B.A.

This is the way for Indonesia to compete with the global world. How to produce a product that has a low cost but high quality. Ever think then?

All must know, in this era of BPJS, generic products is listed products and are guaranteed definitely will be paid by the government, so the development of generic products is a step to win the global competition as well as to improve the quality of public health services (drug-related) by supporting BPJS.

speaker1

1. Drs. M. Sumarno, Apt. Technical Operational Director at PT Taisho Pharmaceutical Indonesia, Tbk

speaker1

2. Angela Gozal, S.Farm., M.B.A. Strategic Project Manager at PT Sanofi Aventis Indonesia

2nd Session Seminar, 13.30AM - 15.00AM

Good Pharmaceutical practice in global chance: service and collaboration

Rumpun Ilmu Kesehatan building Dra. Debby Daniel, M.Epid., Apt.

In an era of global competition, the competence of pharmacists should be expandable in providing services to patients. Clinical pharmacy capabilities and the ability to collaborate with other health professionals is a major step change for the improvement of health services.

What is the formula that have to be done by pharmacist in 2014, AFTA ,BPJS and long long future?. All that will be outstanding in the PHASE 78.

speaker1

Dra. Debby Daniel, M.Epid., Apt. Chief of CSSD Fatmawati Hospital
