

PROGRAM (Tentative)

DAY 1: Wednesday, September 21, 2016

Registration

Joint Opening Ceremony – FIA Exhibition and Conference 2016

Report from the Committee

Welcoming Remarks

Keynote Speech:

Food Innovations: AEC Challenges

PLENARY 1. Food Issues & Regulation (10.30-12.30)

ASEAN Economic Community (AEC) Challenges in Food Safety and Regulation

Food Defence System Awareness/Mission

Indonesian Food Industry Preparation/Readiness

Trade topic

PLENARY 2. Innovations in Food Ingredients & Processing (14.00-15.45)

Innovations in Food Ingredients & Processing

Future/prospects of Alternative Starch Industry: Sago

Fortification of Vitamin A in Cooking Oil

CONCURRENT SESSIONS (15.45-17.00)

Concurrent Session 1,2,3 & 4

Adjournment Day 1

SPECIAL EVENTS (13.00-21.00)

FOOD PRODUCT DEVELOPMENT COMPETITION

GRADUATE STUDENTS RESEARCH PAPER

COMPETITION

IAFT'S Annual MEETING (For member only)

DAY 2: Thursday, September 22, 2016

PLENARY 3. Advances in Nutrition and Health (08.30-10.00)

Nutrition and Health

Nutrition and Health

Total Diet Study

PLENARY 4. Novel Approaches in Food Safety and Quality (10.30-12.30)

Novel Approaches in Food Safety and Quality

Urgency/Significance of Risk Profiling Approach for AEC

Challenges of Mycotoxin Research/Safety Control in ASEAN

Future Trend/Demand of Thermal Processed Foods in AEC and Beyond

CONCURRENT SESSIONS (13.30-17.00)

Concurrent Session 1, 2, 3 & 4

Competition Winner Announcement

Closing Remarks – President of IAFT

SPECIAL EVENTS (13.00-15.00)

FiFSTA Meeting

DAY 3: Friday, September 23, 2016

Field Trip to Food Industry (08.00-17.00 WIB)

FOODREVIEW
INDONESIA

Introduction

On December 2015, ASEAN Economic Community (AEC) has been opened officially as the realisation of the region's end goal of economic integration. The biggest challenge facing countries engaged in food and agriculture related to AEC is about the competitiveness dealt with production, market shares, commodity, also product innovation. Ensuring that innovations of our food is fundamental thing to face the global economics today and contributes in many aspects and related issues. Food is not only related about the human's consumption, but also related with population, life style, health issues, economics or bussiness, etc. Solving immediate and emerging challenges of the future of our food innovation requires interdisciplinary and multidirectional approaches involving all sectors involved: corporates, governments, academics and the public.

This biennial International Conference since 2010 will feature recent research developments, trade and business advances and all other food related issues and ideas, involving all parties in driving the global food production. It will provide opportunity to meet and share experiences as well as strengthen networking among international food scientists and scientists in related fields from academia, government and food industries. The conference is held as one of agendas from Indonesian Association of Food Technologists (IAFT/PATPI), the Department of Food Science and Technology Bogor Agricultural University (DFST-IPB), and Southeast Asian Food and Agricultural Science and Technology (SEAFast) Center-LPPM IPB to organize this three-day conference on 21-23 September 2016. This conference is held and linked to Food Ingredients Asia 2016. The objective is to highlight significant developments in research and innovations in food science and technology with an emphasis on innovative ASEAN food research towards the world.

Time & Venue

- Conference will be held on 21-22 September 2016 at JIE Jakarta International Expo, Kemayoran - Jakarta, Indonesia.
- Field trip to industry will be held 23 September 2016.

Participants

Scientist, industry practitioners, professionals, government officers working in the area of food, food safety, and food trade are encouraged to participate updating themselves with the latest innovation & development of food science and technology.
