Workshops

All public sessions are only planned yet. Changes will apply. We will announce details soon.

Towards the ASEAN Economic Community

This workshop will present SEA-EU-NET's work in the area of innovation framework conditions, most importantly the recently produced report on innovation framework conditions. It will engage experts and a targeted audience in discussions on the future of innovation framework conditions in ASEAN in the light of currently ongoing economic integration processes (AEC). Finally the workshop will facilitate an ASEAN-EU exchange of experience in the area of (regional) innovation framework conditions.

Organised by ZSI, RCN, KNAW, held in slots 1 & 2 on Wednesday, 8:30 – 13:00.

Aquaculture

Organised by ASEM, held in slot 4 on Thursday, 11:00 – 13:00.

EaP / CA Inco

The IncoNet EaP and IncoNet CA projects just like SEA-EU-NET 2 focus on the societal challenges climate change, environment, energy, and health. Inviting researchers from these projects will enlarge the pool of researchers present in order to reach a critical mass and to ensure networking on a larger scale on the above mentioned thematic fields. Both slots dedicated to EaP and CA researchers are open for EU and ASEAN researchers. This workshop will inform EU and ASEAN researchers about the research landscape in EaP and CA countries, facilitate networking among the four regions, and build up new contacts and possible consortia for Horizon 2020 calls.

Organised by RCISD, held in slots 3 & 4 on Thursday, 8:30 – 13:00.

Food Safety: Prevention Strategies for Mycotoxins in the EU and ASEAN

Organised by ISPA, CIRAD, held in slot 4 on Thursday, 11:00 – 13:00.

Organised by BHC, held in slot 2 on Wednesday, 11:00 – 13:00.

National Contact Point Training

Training on invitation for National Contact Points (NCP). Learn more about the basic services a NCP should offer. Receive information from experienced NCPs regarding most used services and tools. Exchange information with other NCPs in a questions and answers session.

Organised by EURResearch, held in slot 2 on Wednesday, 11:00 — 13:00.

SUSTAIN EU-ASEAN

Based around SUSTAIN EU-ASEAN's thematic clusters (cities and natural resources), this workshop will focus on identifying and discussing gaps in research activities, particularly gaps in EU-ASEAN cooperation, in the clusters. In order, however, to not only identify problems, but instead to actively work toward their solution, the workshop will also discuss financing possibilities for EU-ASEAN research collaboration, both in general, but particularly in the thematic gaps identified on the day.

Organised by WI, DLR, ZSI, held in slot 3 on Thursday, 8:30 – 11:30.

Water, Energy, Food Nexus

Organised by PAN, AIT, held in slots 1 & 2 on Wednesday, 8:30 – 13:00.
